

# Internet Access

HCCSD is supporting students without internet service so they can continue their schooling via **Online Virtual Learning.**

If you need internet access, go to the Online Virtual Learning webpage and submit a **Parent/Student Help form.** If you are unable to submit a form online, call your school principal for assistance.

Mobile internet stations for Lexington Apartments & Durant Apartments will be set up March 30-April 3.

Hot spots are received by the district in small collections. Parents will be contacted as soon as the hot spot is ready for distribution.

## Hot Spot Request

HCCSD provides hotspots and mobile wi-fi stations to families who do not have internet service. This allows students to continue learning and complete assignments. **Most cellular providers are offering free and unlimited data. Check with your provider.** If you do not have internet service or access to a data plan, submit a **Parent/Student Help Form** found on the Online Virtual Learning webpage. [holmesccsd.org](http://holmesccsd.org). Your school principal can also assist.

*Individuals will be asked to sign a form indicating that without assistance from the district, their student(s) would be unable to participate in online virtual learning.*
